

ScanSnap SV600

A New Perspective on Scanning

shaping tomorrow with you

Redefining what a document scanner can do!

Overhead scanning made simple

Scan newspapers, magazines or books directly without cutting or damaging them.

Preserve delicate documents or books

Some things can't be scanned through a feeder so ScanSnap SV600 operates by taking an elevated view altogether.

Scan business cards to large A3 size (double-letter) documents

ScanSnap SV600 breaks free from typical flatbed limitations by scanning content larger than just letter size. Simply position the document on the A3 scan mat and press scan.

Save time, save effort

Make it an easy job by scanning not only books or magazines but all types of content restrained in binders, spirals, folders, or clear sleeves... just flip the page and scan.

VI Technologies (Versatile Imaging)

Combining high quality CCD optics and advanced LED illumination, ScanSnap SV600 uses advanced capture technologies to maximize field of depth and minimize unevenness page after page.

Smooth operation in overhead scanning

ScanSnap SV600 is enhanced with new customized features while continuing the ScanSnap concept: Simple, Fast and Compact.

Quick Menu saves time!

The Quick Menu pops up after scanning to allow users a fast and productive way to store, share or transform their scanned data either on the computer or into a favorite cloud service like Evernote or Dropbox.

Automatically crop several documents at once with "Multiple Document Detection"

With an advanced cropping and orientation technology built-in, ScanSnap SV600 can scan several business cards, photos, newspaper clippings and other documents at one time.

ScanSnap Receipt™

ScanSnap Receipt allows users to easily scan and extract information from receipts, and export the data into CSV for easy tax filing. ScanSnap Receipt also supports multiple languages and currencies.*

*Supported languages: English, Spanish, French, German, Italian, Russian.
Supported currency's: USD (United States Dollar), CAD (Canadian Dollar), GBP (Great Britain Pound), EUR (Euro), RUB (Russian ruble), AUD (Australian dollar)

Performance matters.

With the touch of the power button, ScanSnap SV600 is ready to scan in just 3 seconds! And with each press of the scan button, a large A3 dimension scan area is captured in less than 3 seconds. Combined with intelligent image correction, great results are just a button push away.

Space-conscious design

Breaking the bounds of typical flatbed scanning, ScanSnap SV600 is easy on space as well as effort.

Easily create your own digital books

ScanSnap SV600 is your ultimate partner to scan books or magazines efficiently.

Step 1: Scan with one button!

Place the book on the mat and press the scan button.

Page Turning Detection – SV600 detects when a page is turned and automatically begins scanning.

Timed Mode – Set a fixed time interval and SV600 scans in real time with you.

Step 2: Auto image correction

Auto Image Correction – Automatically crops, de-skews and sets the orientation of multiple sheets placed on the mat.

Auto Book Correction - Automatically flattens and corrects the curve distortion of books and magazines.

ScanSnap Sync

Quickly and easily synchronize your scanned documents between ScanSnap Organizer on your computer and the ScanSnap Connect App on your mobile device using Dropbox, Google Drive or OneDrive. ScanSnap Sync automatically synchronizes scanned documents between your computer and mobile device, giving you more flexibility to manage your scanned data.

Book image correction
Flattens and corrects curve distortion.

Point retouch function
Fingers captured during scanning can be removed.
