

WorkForce DS-770

Intelligent compact sheet-fed scanner with innovative smart features to ensure the highly-efficient scanning of many documents quickly.

With powerful media handling and innovative smart features to ensure a high level of data integrity, the WorkForce DS-770 is geared towards highly-efficient and simple integration into an organisation's workflow. With a 100-page ADF and the ability to scan at up to 45ppm/90ipm, it offers a wide range of media handling options that enable you to rapidly capture, index, store and share business documents.

Intelligent features improve efficiency, accuracy and data reliability

With an industry-first slow mode¹ for scanning crumpled or fragile documents, the ability to scan challenging media has never been easier. The Active Separation Roller System prevents tedious document double feeds ensuring every piece of paper gets scanned and the Double Feed Detection Skip (DFDS) function means you can scan difficult media like envelopes or documents with post-it notes. Auto Scan Mode enables the processing of a vast number of documents as manageable amounts, enabling them to be scanned as one file.

Highly versatile

The optional flatbed scanner conversion kit allows effective document processing from stamps to passports and books. Single-pass double-sided scanning ensures rapid document processing, while it's possible to scan a versatile array of media such as paper as thin as 27gsm, or thick card at 413gsm. The A3 carrier sheet speeds up the process by automatically stitching larger documents back together digitally.

Flexible connectivity

High-speed USB 3.0 with TWAIN, WIA and ISIS drivers for enhanced compatibility with Document Management Systems.

Image enhancement and document management software

Epson Scan 2.0 software makes it easy to edit images with features such as de-skew and auto rotate, while Document Capture Pro is the easy to use solution for capturing and storing electronic documents at the touch of a button.
